

QUITTING TOO SOON?

**To quit while we are ahead would be silly,
to quit while we are behind even sillier.**

**It requires will to hold on a little longer,
it requires wit to know that the measures of
Success is not the luck or the breaks of the
game, but the conquest of failure.**

**“Often it is not the wrong start but the
wrong stop that makes a difference between
success and failure.”**

“Men don’t fail, they give up trying.”

Elihu Root
